Pastor W. C. White,
Sanitarium, California.

Dear Brother:-

In regard to the letter which I return to you, will say, that the circumstances are something like this. I was informed long, long ago that Brother Roberts had sent all the pictures there to College View, and I did not understand what the difficulty was. Byington complained ~~xxx~~ that he cuts had not come, I saw Roberts and he said they were all sent. Of course, I can see now where the difficulty came. During my absence the cuts were sent on to College View, but no word were sent with them where they were to go or any other instructions and so Byington told me that all the cuts had not been received. Then when I find that Roberts said he had sent them all I supposed, in the mean time, they had come, of course. The last cuts were sent somewhere between five and six weeks ago. Recently I sent him full instructions in regard to them so that there will be no difficulty on this point. I am very sorry for the delay. It was really in some degree my fault, but I do not know how I could help as I was traveling so much and away from home that I could not look after these details. As my work now stands, I do not want to take any more out side work from any one. I am now pushing the work on Past, Present and Future as rapidly as I know how, Elder Washburn is helping me and there is an early prospect of closing up this work, but I find that we will have to do much of the illustrating over again and this will take all the powers ~~xx~~ and facilities which I have for a good while. I am sorry I undertook

this work on Christ Our Saviour, but I assure you I did what I could, Will, however, the situation may look otherwise.

Now, in regard to the Spanish New Testament Primer, I sent you the dummy yesterday. I would like to have you look it over carefully, or rather have your spanish student there look it over and make only such corrections as are really needed and what ever corrections are made at that end of the line please put a circle around them so that I can have a chance to judge of the quality of the work that was done by Caviness. Of course it is really necessary for me to know something about this in the final settlement with him.

There are some matters that I desire to write you about, but I cannot do it now. I think there are some things that will open your eyes when you learn them, but I will get around to this bretty soon.

As ever your brother,
