Elder A. G. Daniella,
Takoma Park Station,
Washington, D.C.

Dear Brother, ---

There is one matter which I ought to have written about before, but I have waited day by day hoping to receive from Mother something which she has intended to write.

About the time that Elder Prescott left St. Helena for the East Mother told me that she intended to write to him that it was not best for him at this time to publish any views regarding The Daily, which would unsettle the minds of our people regarding positions held in the past. This was quite a surprise to me and I believe it would be a surprise to Brother Prescott, and I have waited, expecting to see the MS.; but as yet nothing on this subject has been given to the copyist. I really think it would be well for you to advise Brother Prescott to let this matter rest a little while. I think it will be greatly to the advantage of all parties concerned if a careful study can be made of the subject with an effort to harmonize as far as possible the old and the new view and let the difference which must appear be as little as possible.

Yours in haste,

W. C. Whit
