CABLE ADDRESS
"Adventist" Washington

October 21, 1930

Elder W. C. White
St. Helena, Calif.

Dear Brother White:

I deeply appreciate your letters dated October 1 and 3, the first answering my inquiry relative to your understanding about prayer for the sick in relation to the light that has been vouchsafed this people along health reform and other related lines. The presentation that you make is in harmony with my own understanding, but there are certain individuals in our ranks, such as J. G. White, who hold very markedly different positions, and I wanted to have your counsel. May I in this connection ask concerning the authenticity of the quotation alleged to have been written by Sister White, which Dr. Hagan kindly sent me recently. I have made it a rather consistent rule to check up on all unpublished testimonies as to authenticity and accuracy. I do not know that your helpers can readily locate this, but if so I will be glad to have a check-up on this point.

I also thank you for the information on the letter from Crystal Springs, May 19, 1930. Assuring you that I appreciate the many responses which I have received from you, I remain

Yours very sincerely,

L. E. Froom

LEF/n
